RAY OF LIGHT

COLOUR ROAD JOURNEY 26/27

Light-filled clarity for mindful presence.
Ray of Light floods the room with a gentle brightness. The light vanilla shade boosts confidence, clarity and inner peace. The delicate yellow has a softly invigorating effect, like a glimmer of light, almost translucent, similar to the glow of a rice paper lamp. In an age of digitalisation and acceleration, the shade reminds us to pause and make more room for conscious breaks and a sense of lightness.

Its friendly radiance also makes the shade suitable for use over large areas: in kitchens and living spaces as well as in bathrooms, caravans or offices. In hospitality, healthcare and wellness contexts too, **Ray of Light** supports an open, soothing spatial effect. Whether on furniture, cabinet fronts or wall surfaces, the shade brings a subtly optimistic energy to any environment.

With its matt and soft finish, **Ray of Light** exudes a calming quality. Combined with **Lincoln Walnut**, it creates an appealing interplay of light and dark shades. The other colours in the **Soul Sanctuary** palette can be harmoniously combined: **Flourish** adds warmth and vitality, **Aura** emphasises freshness, and **Silence** provides depth and contemplative tranquillity.
