RENOLIT ALKORFOL STEEL SHIP Product Information

2D films especially
certified for ship
interiors

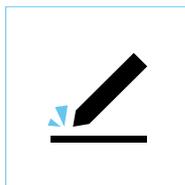

RENOLIT ALKORFOL STEEL SHIP

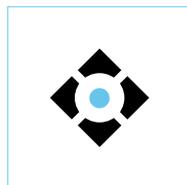

RENOLIT ALKORFOL STEEL SHIP is a proven speciality film which gives decoration to steel and aluminium surfaces in solid colours, metallic and wood designs. With a virtually infinite range of colours and a rich selection of embossing structures and gloss levels, this robust surface material provides a whole new world of design options.

We produce these films with varying performance characteristics, depending upon application. Moreover, our quality is certified to meet all common international test standards. With its IMO certification and wide choice of décors, RENOLIT ALKORFOL STEEL SHIP is the ideal product for decorative surface design in ship interiors.

A STRONG PARTNER BY YOUR SIDE

"With IMO certification and a wide range of décors, RENOLIT ALKORFOL STEEL SHIP is the ideal product for decorative surface design in ship interiors. The outstanding feature: thanks to the possibility of self-adhesive fit out of the product, a fast and cost-effective modernisation is easy to handle – even when the anchor is pulled". – Mathias Schrafl, Sales Director Interior Surfaces

Mathias Schrafl,
Sales Director Interior Surfaces.

DECORATION AND MODERNISATION MADE EASY.

FOR THOSE WHO WANT TO GET THINGS DONE FAST.

Whether it concerns initial décor, modernisation or repairing damages of any kind, the films by RENOLIT ALKORFOL STEEL SHIP self-adhesive are easy to handle and flexible to use.

With RENOLIT Film Service decoration, renovation and modernisation is made easy. It provides training for the handling and application of self-adhesive RENOLIT ALKORFOL STEEL SHIP films with the opportunity to qualify as a certified RENOLIT Partner. Besides, RENOLIT Film Service is a fast solution for you if the film has any scratches, rips or other damage.

These self-adhesive, easy-to-handle RENOLIT ALKORFOL STEEL SHIP films are available for mock-ups as well as for the initial décor, repair and modernisation of the interior of cruise liners and yachts.

Available in different embossings, décors and colours.

Easy-to-handle and time saving modernisation thanks to the self-adhesive films.

Modern design of interior spaces in the twinkling of an eye.

DESIGN MADE FOR YOU.

Design consulting, development and future trends are the pillars of the expert team in our Design Centre in Bochum, Germany.

As a future-oriented company with a strong focus on design, we place great importance on contemporary topics and the wishes of our customers.

Based on our expertise, competence and passion, we offer individual décors that are tailored to the personal needs of our customers. You can choose from a wide range of décors from our exclusive design range or create your desired décor in cooperation with our team.
