RENOLIT ALKORPLAN Liners

RENOLIT ALKORPLAN is a 0.75mm thick Plasticised PVC designed and manufactured for Swimming Pool Liners.

The product is made from virgin polymer and is completely recyclable. It is an economical, practical and versatile way of lining a swimming pool, and possesses many advantages over other materials.

The entire **RENOLIT ALKORPLAN** range meets all requirements of the French Standard NFT 54-803-1. The liner is recognized for its great resistance to water pressure and its flexibility in adapting to the contours of the pool structure.

Moreover, **RENOLIT ALKORPLAN**, the manufacturer, guarantees that the liner will remain watertight for up to 10 years.

GUARANTEE
WATERTIGHTNESS
10 YEARS

RENOLIT ALKORPLAN liners come in a variety of colours and designs, which can customize any pool making it unique and exclusive.

All products are manufactured to a level of incomparable quality:

- **RENOLIT ALKORPLAN1010** Liner: One-colour smooth and anti-slip.
- **RENOLIT ALKORPLAN2010** Liner: One-colour with lacquer.
- **RENOLIT ALKORPLAN3010** Liner: Pattern with lacquer.
- **RENOLIT ALKORPLAN3010** Liner: Tile band with lacquer.

Our added value:

- Liners, which are exceptionally resistant to any aggressive weather conditions.
- Colours and designs are stabilized and protected against ultraviolet rays (UV).
- Resistant to variations in water temperature.
- High resistance to microorganisms, colourants and oils present in water.
- Contains effective fungicides and bactericides.
- Extremely flexible, and conforms easily to the contours of the swimming pool.
- Wide range of colours, designs and tilebands.
- All production processes are governed by strict quality and control regulations.
- High speed of production and quick delivery.
- Delivery to any part of Europe.
- Competent highly qualified technologists and staff.
- Comprehensive guarantee on materials.
- Competitive prices.

10 YEARS

What makes RENOLIT ALKORPLAN different? ...the secret is in the lacquer

RENOLIT ALKORPLAN is the only brand that applies a protective lacquer to its liners thus reducing degradation from scratches, stains, bacteria and ultraviolet rays, and preventing premature aging.

LAYER OF LACQUER

Prevents bacteria proliferation under the liner that can penetrate it, creating stains on the surface of the liner.

LINER
10 years waterproofing warranty, variety of colors, flexibility and endurance, long life.

RENOLIT ALKORCLEAN, degreasing cleaner

For easy pool maintenance, RENOLIT recommends the use of ALKORCLEAN a product specifically designed for liners.

It is a non-abrasive and sustainable cleaner which when applied with a damp cloth will maintain the liner in perfect condition.

The lacquer lengthens the life of the liner

Benefits of the lacquer

- 1 Prevents the development of bacteria and fungi, making the pool more hygienic.
- 2 Protects the liner from UV radiation and prevents its premature ageing.
- 3 Repels dirt and stains, and facilitates the cleaning of the liner.
- 4 Acts as a shield against scratches and grazes due to constant use.

RENOLIT ALKORPLAN is the only brand that markets its pools liners with a special lacquer coating that protects them from scratches, stains, bacteria and UV radiation, preventing them from premature ageing.

Liners RENOLIT ALKORPLAN1010 and 2010

RENOLIT ALKORPLAN1010 is a plain coloured vinyl liner, with excellent quality and extensive colour range, that can turn a pool into a work of art. RENOLIT ALKORPLAN2010 is a plain coloured vinyl with a protective lacquer with a higher resistance to degradation from UV and micro-organisms.

What is the secret behind our lacquer? RENOLIT ALKORPLAN is the only brand in the market that incorporates a protective lacquer, to slow down the ageing process of your pool. If you want to offer your customers greater resistance to corrosion and UV radiation, choose ALKORPLAN2010. RENOLIT ALKORPLAN will make you the best pool installer.
